Introduction

Overview and goals

Conclusions

Goals

with smaller goals

The goal

The goal of BCSS is to discover the meaning of life by explaining the source of TGFs, as will be shown by Author et al. [3000] in the future.

We achieved great results in this direction:

1. Result one
2. Result two

Without enumeration:

- ▶ Result one
- ▶ Result two

This study was supported by the European Research Council under the European Union's Seventh Framework Programme (FP7/2007-2013)/ERC grant agreement n. 320839 and the Research Council of Norway under contracts 208028/F50, 216872/F50 and 223252/F50 (CoE).
